INTERESTS

In my leisure time I enjoy music, fishing and skate boarding. I am a talented musician and play the guitar (electric and bass) and saxophone.

DRIVING LICENCE

I have a **full, clean** UK driving licence.

WORK EXPERIENCE

Rare Design Ltd (May 2021 – present)

Motion Graphic Designer / Animator / Artworker.

My role is to support the studio with a variety of work for digital projects, as well as print. Working within a fast-paced environment, I manage my time to meet deadlines, and am required to communicate with clients. With great IT skills and a keen eye for detail, this role is well suited to my technical nature, whilst allowing me to develop creatively. I have had opportunities to develop professionally and have completed Adobe accredited courses in After Effects and Premiere Pro. Tasks in the studio include:

Animating Explainer, Promotional and Greeting videos. Following storyboarding I create assets for use in After Effects and Premier Pro. Projects I work on involve animating text and 2D characters as well as adding special effects, voice-overs and subtitles. As a composer I use Ableton Live to create music to complement videos. At the beginning of 2022 I had the opportunity to complete a course in Cinema4D, and I am excited to further develop my skills in this software.

Video Editing. Supplied with existing footage I create videos, ranging from short clips to full length educational presentations. These are for use on social media and websites, and produced using Premier Pro.

Animating GIFs for Social Media. Using Photoshop, Illustrator and After Effects, I create animated GIFs for website banner ads and various social media platforms. These large-scale online advertising campaigns are ongoing and require quick turnaround.

Creating Print Ready Artwork: Fluent in the use of the Adobe Creative Cloud, tasks include artworking leaflets, brochures, posters and banners, as well as some product packaging, across many industries.

Proficient with WordPress. With a good understanding of this platform, I build websites from scratch and edit existing sites. I built my own site where my showreel is available to view.

Iceland (June 2020 – June 2021)

Online picker during the COVID-19 pandemic, working night shifts. Unsociable hours and changing work patterns required me to be flexible and adaptable. As a dedicated and professional team member I stayed committed to my role as a frontline worker.

First Recruitment Services (February 2019 – June 2020)

Working for this recruitment agency gave me the opportunity to take varied roles across different workplace settings.

Hospitality (October 2016 – February 2019)

Whilst studying I worked in various hospitality roles as part of a team to deliver exceptional customer service. I developed good communication skills to ensure that visitors' needs were met.

EXTRA-CURRICULAR ACTIVITIES/ACHIEVEMENTS

Crest STEM Awards Scheme (September 2013 to July 2017)

During my school life I was involved in Science, Technology, Engineering and Maths projects, and achieved all Crest STEM Awards: Bronze, Silver, and Gold. Through this work with scientists and my peers, I extended and applied my knowledge to contribute towards scientific research.

Chiltern Music Academy (September 2011 to December 2016)

As a keen saxophonist I was a member of a community music club. Performing in the Senior Wind Band and Saxophone Quartet taught me teamwork, appreciating my fellow musicians and delivering great performances.
